PROFESSIONAL SUMMARY

MERN Stack Developer with practical experience building full-stack web applications using React.js, Node.js, Express.js, Tailwind CSS, and databases like SQLite and MongoDB. Skilled in developing responsive user interfaces, creating RESTful APIs, implementing server-side validation, and adhering to ESLint code quality standards. Seeking an entry-level role as MERN Stack Developer, Front-End Developer, React Developer, or Web Developer.

CORE TECHNICAL SKILLS

Front-End: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design

Back-End: Node.js, Express.js, Python, RESTful APIs

Databases: MongoDB, SQLite, SQL

Developer Tools: Git, GitHub, VS Code, Postman, npm, ESLint

General IT: MS Word, MS Excel, MS PowerPoint

PROJECTS

Jobby - Job Search Web Application *(React Developer)*

Live Demo: View Live Project

- Built a job search application using React.js and Tailwind CSS to fetch and display job listings, descriptions, and filtering options.
- Implemented structured, reusable UI components, improving code maintainability and reducing duplication across the app.
- Managed application state, integrated third-party APIs, and followed ESLint configurations for clean, consistent code.

NxtWatch - Video Streaming Application *(React Developer)*

Live Demo: View Live Project

- Developed a YouTube-style video streaming application using React.js with a secure login/authentication form and protected routes.
- Built a custom video player supporting playback controls, view tracking, like/dislike, and save-to-list functionality.
- Implemented dynamic routing, search, and category-based filtering (Trending, Gaming, Home) with responsive UI across devices.
- Managed global state (theme, authentication) using React Context API and consumed RESTful APIs for dynamic content rendering.

Todo Management API & Web Application *(Backend / Full Stack Developer)*

- Built a full-stack backend application using Node.js, Express.js, and SQLite for robust database management.
- Developed custom middleware for server-side validation, supporting filtering of tasks by status, priority, and category.
- Designed asynchronous RESTful API endpoints to perform CRUD operations on tasks, ensuring reliable data handling.

EDUCATION & CERTIFICATIONS

MERN Full Stack Development (Specialization)
NxtWave Disruptive Technologies | 2025 - Present

Bachelor of Commerce (B.Com Finance)
Universal Arts and Science College, Mannarkkad | 2024
